

## If you need to Mark It, Move It or Measure It, PTR has a solution.

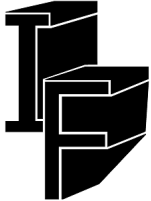

**Telesis®** The leader in direct part marking. Our wide range of **LASER**, **PINSTAMP®** and **TELESCRIBE®** Marking Systems are fast and durable. They are relied on in thousands of manufacturing facilities throughout the world. **Telesis®** systems whether Standard or Custom Engineered are designed to meet the most demanding customer requirements. [www.telesis.com](http://www.telesis.com)

**TOX** The market leader in **Pneumohydraulic (air/oil) Cylinders** and **Electromechanical Drives**. Integrated, Stand Alone, Hand Held and Robotically Mounted. Applications include: Assembling, Press Fitting, Clinching, Fastener Insertion, Punching, Piercing, Coining, Riveting, Crimping and more. A complete line of Press Frames, Tooling, Controls and Monitoring. [www.tox-us.com](http://www.tox-us.com)

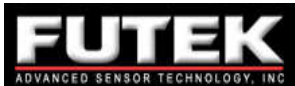

**Hoosier Feeder Co.** has the knowledge and experience to orient the most difficult parts in vibratory and centrifugal feeders. It is our objective to create the simplest system for the job. The creativity of our concept team allows us to offer unmatched reliability to the most complex feeding applications. [www.hoosierfeedercompany.com](http://www.hoosierfeedercompany.com)

**Direct Conveyors - Solutions for your conveying applications** Direct Conveyors is Dedicated to Providing Innovative, Cost-effective Solutions. Over 20 different Common Platforms Including: Low Profile - Steel/Cleated/Modular Plastic Belt, Palletized, Plastic and Metal Chain, Low Back Pressure Roller Chain, Indexing, Bi-Flow, Timing Belt Conveyors and more. [www.directconveyors.com](http://www.directconveyors.com)

**Integrity Fabricators** specializes in the design and manufacture of custom material handling equipment. With over 30 years of experience in the industry, we offer custom 3D design and fabrication services for a wide range of conveyors, lifts, transfers, turntables and more. [www.integrityfab.com](http://www.integrityfab.com)

**Futek – Advanced Sensor Technology** Load Cells, **Torque** Transducers, **Pressure** and **Force** Sensors. Robust sensors for Industrial, Medical, and Aerospace applications. Specialty and Multi-component Sensors, Displays, Amplifiers and Sensor Calibration. [www.futek.com](http://www.futek.com)

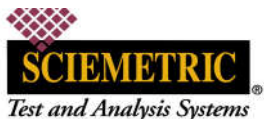

MICRO-EPSILON

**Micro-Epsilon – The Authority in Displacement Measurement** Laser – Single and Multi-point Scanners, Non-Contact IR Temperature, Inductive, LVDT, Eddy-Current, Capacitive and Draw-Wire sensors. Sensors for Gaging, Displacement, Distance, Vibration, Thickness and Temperature. [www.micro-epsilon.com](http://www.micro-epsilon.com)

### **Soft Automation - Machine Vision and Automation Software**

Soft Automation provides integration and consulting services. With a strong expertise in Industrial Automation, Machine Vision and a strong background in software development, Soft Automation Inc prides itself, as a solution provider and systems integrator. <http://www.softautomation.com>

### **Sciometric – Factory Floor Test Systems & Birth History**

**Data Management Systems** Wide Range of Standard Test Instruments that are Affordable and Scaleable. Applications such as **Press Monitoring**, **Leak Testing**, **Torque Testing**, Gaging, Cold Testing, **Vibration (NVH) Testing**, Thread Verification, Balancing, Welding and Many More. [www.sciometric.com](http://www.sciometric.com)

### **PTR East (Main Office)**

28525 Beck Rd., Suite 109  
Wixom, MI 48393  
Phone (248) 668-9051  
Fax (248) 668-9059
